Submission of Manuscripts
Manuscripts should be submitted via our online manuscript submission and tracking site, www.edmgr.com/cep.

Full instructions for electronic submission are available directly from this site and from journals.cambridge.org/cep. To facilitate rapid reviewing, communications for peer review will be electronic and authors will need to supply a current e-mail address when registering to use the systems.

Full Notes for Authors are available from journals.cambridge.org/cep, and an abbreviated version is printed at the back of this issue.

Subscriptions
Comparative Exercise Physiology (ISSN 1755-2540) is published four times a year in February, May, August and November. The subscription price for institutions of Volume 7 (2010) which includes electronic access and delivery by air is £238 (US $463 in the USA, Canada and Mexico), the electronic only price for institutions is £260 (US $505 in the USA, Canada and Mexico). Single parts are £85 (US $163 in the USA, Canada and Mexico), plus postage.

Orders, which must be accompanied by payment, may be sent to a bookseller, subscription agent or direct to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK; or in the USA, Canada and Mexico: Cambridge University Press, Journals Fulfilment Department, 100 Brook Hill Drive, West Nyack, New York, 10960-2333. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country’s rate. VAT registered subscribers should provide their VAT registration number. Japanese prices for institutions are available from Kansuikyuso Company Ltd., P. O. Box 55, Chitose, Tokyo 156, Japan.

Copies of the journal for subscribers in the USA, Canada and Mexico are sent by air to New York to arrive with minimum delay. Periodicals postage paid at New York and at additional mailing offices. Postmaster: send address changes to the USA, Canada and Mexico to: Comparative Exercise Physiology, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133. Claims for missing issues should be made immediately on receipt of the subsequent issue.

Advertising
Advertising queries for all parts of the world except the USA, Canada and Mexico to: adsales@cambridge.org Address enquiries in the USA, Canada and Mexico only to: science-advertising@cup.org

Coping
This journal is registered with the Copyright Clearance Centre, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C. C. M. may therefore copy material (beyond the limits permitted by sections 107 and 108 of U. S. Copyright law) subject to promotional or commercial purposes. Code 1755-2540/2010/106.00 © SJ Trow Sheet Service, 5901 Market Street, Philadelphia, PA 19104, USA is authorized to supply single copies of separate articles for private use only. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions. For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Internet Access
The online edition is available at journals.cambridge.org/cep, with free table of contents alerts (upon registration).

Notes for Authors

Comparative Exercise Physiology (CEP) provides a forum for presenting the results of research related to understanding and improving animal exercise and performance. Research into all aspects of exercising humans, will be welcomed. The key areas the journal will concentrate on include: exercise physiology, biomechanics and gait (including the effect of riders), nutrition and biochemistry, rehabilitation, psychology and behavioral breeding and genetics. Other areas for consideration include pharmacueticals and doping, ageing, environment, transport and any other research relevant to exercise and athletic performance.

Styles of Paper
CEP publishes four types of paper:
1) Full research papers. A full account of a complete project with experimental details.
2) Short communications. A preliminary account of exciting new results for which work is ongoing. Indicative experimental summaries should be included.
3) Research notes. Short accounts of small projects that might not merit a full paper (e.g. undergraduate research projects or minor aspects of PhD theses). These might include technical notes.
4) Reviews. Literature overviews of recent research in a larger subtopic or comparative reviews of related work in different species.

In addition to these four types we also welcome ‘Letters to the Editor’ with comments on recently published papers to encourage a dialogue between readers and researchers.

Please indicate the type of paper you are submitting.

Technical and Nomenclature Standards
All work should use SI units as standard. Anatomical terms can be a mixture of the English vernacular and Latin, depending on current usage.

Peer Review
All contributions will be reviewed by at least two referees to ensure the standards described above. You should submit the names and contact details (including email addresses) of at least two, and up to four, potential referees for your paper.

Submission of Manuscripts
Manuscripts should be submitted online via our manuscript submission and tracking site, www.edmgr.com/cep. Full instructions for electronic submission are available directly from journals.cambridge.org/cep. To facilitate rapid reviewing, communications for peer review will be electronic and authors will need to supply a current email address when registering to use the systems.

Final Manuscript Preparation
If your paper is accepted, you should supply the final paper as a Word document with separate figure files to exercises@cambridge.org. When submitting the final version please specify the software used for word processing and illustrations and identify the operating system used (PC, Mac, Unix etc.). We kindly ask that you follow the instructions below for the final version. Please use double line spacing and ample margins and separate each paragraph by a blank line, numbering each page. Do not indent the start of each paragraph or use underlining. Please use italics for taxonomic nomenclature, bold for headings and standard abbreviations (e.g. Fig. and Figs) and SI units.

Arrangement of Papers
Please arrange your paper in the following order:
1) Title page. Article title, authors addresses (one author should be identified for correspondence), and abstract. 2) The text, divided under appropriate headings. 3) Acknowledgements (if any). 4) References. 5) Tables (one on each a separate sheet). 6) Captions to illustrations (group on a separate sheet or sheets). 7) Illustrations, each on a separate sheet or as separate files.

Tables
Tables should be in a simple form. They should not be used if text or illustrations give the same information. Each table must be accompanied by a clear and concise caption.

Illustrations
Please ensure text figures, line drawings, computer-generated figures and graphs are of sufficient size and quality to allow for reduction. Please avoid the use of grey tints or complex hatching and only use halftone photographs where they make a real contribution to the text. Please inform the Editor at the earliest opportunity if you wish to use colour illustrations (we will ask you to pay in advance for the use of colour, but we can advise on how this can be kept to a minimum).

References
References should be in the Vancouver system, i.e. sequential numbering in the text and corresponding reference list. Reference numbers should be raised superscripts.

You should use the following conventions when providing the full citations in the reference list.

Ethics
The Editors must demonstrate that the experimental procedures employed conform to the accepted principles of animal welfare in experimental science. Please see the CEP website for more details (journals.cambridge.org/cep).

Copyright
Papers are accepted papers on the understanding that the work has been submitted exclusively to the journal and has not been published previously. Authors will be supplied with a transfer of copyright form with their proofs, this must be completed and returned to the Publisher.

Note that it is the author’s responsibility to ensure that permission has been obtained from the copyright owner if you wish to reuse any figures or illustrations from previously published work.

Proof
We will contact, and send page proofs for correction, to the first named author unless you indicate otherwise.

Offprints
The corresponding author will be sent a PDF file of the final published article for use. There will also be an option to purchase offprints.

For a more detailed Notes for Authors please visit: journals.cambridge.org/cep.
