Handbook of cheese in health
Table of contents

Cheese in context of diet and nutrition

1. Cheese in the context of diet and nutrition 15
   A.L. McCarthy, T.P. O’Connor and N.M. O’Brien

2. The consumption of cheese in relation to dairy foods: a USA perspective 27
   C. Davis, D. Blayney and J. Guthrie

3. Sensory characteristics of cheese 39
   E. Jerónimo and F.X. Malcata

Cheese making and processing

4. The principals of cheese making: an overview 55
   A.C. Freitas, D. Rodrigues, A.C. Duarte and A.M. Gomes

5. Small ruminants feeding and effect on cheese composition 73
   D.P. Jaramillo Bustos, W.B. Valderrama and A.J. Trujillo Mesa

6. Shelf-life extension of cheese: frozen storage 87
   N.B. Alvarenga, S.P. Ferro, A.S. Almodôvar, J. Canada and I. Sousa

7. Rennets and sensory characteristics of traditional cheeses 103
   M. de Renobales, M. Virto and L.J.R. Barron

8. Shelf-life extension of cheese using edible packaging materials 123
   M.Á. Cerqueira and A.A. Vicente

9. Biofilm formation in the dairy industry: applications to cheese 137
   M. Marino, F. Frigo, I. Bartolomeoli and M. Maifreni

10. Safety issues in the production of cheeses from raw milk and natural starters 151
    M. Maifreni, I. Bartolomeoli, F. Frigo and M. Marino

11. Bio-protective solutions in cheese manufacture 167
    P. Chanos, H.U. Morgenstern and A.C. Dalgas
# Table of contents

## Cheese types

12. White cheese  
   *O. Gursoy, H. Keskenas and Y. Yilmaz*

13. Manchego cheese  
   *S. Seseña, J.M. Poveda, L. Cabezas and M.Ll. Palop*

14. Pecorino Crotonese cheese: a source of microbial biodiversity with potential probiotic features  
   *C.L. Randazzo, I. Pitino and C. Caggia*

15. Gouda-type cheeses  
   *K. Van Hoorde and A. Van Landschoot*

   *L. Franzetti, L. Dioguardi and M. Scarpellini*

17. Pasta filata cheese: advances in processing and preservation  
   *M. Faccia, D. Gammarriello, A. Conte and M.A. Del Nobile*

18. Parmigiano-Reggiano cheese: nutritional aspects and historical context  
   *F. Cioni, E. Dall’Aglio and L. Arsenio*

19. Blue cheese  
   *B. Mayo, L. Alonso and Á. Alegría*

20. Cream cheese: characteristics and micro-structural analysis  
   *M.A. Del Nobile, J. Laverse, L. Angiolillo and A. Conte*

21. Camembert cheese: processing and ripening  
   *M.N. Leclercq-Perlat, D. Pique and G. Corrieu*

22. Smoked cheese  
   *P. Sopelana, M.L. Ibargoitia and M.D. Guillén*

## Cheese microbiology

23. Elimination of pathogenic bacteria in cheese by high pressure processing  
   *M. Nuñez and M. Medina*
Table of contents

24. Genotypic identification of lactic acid bacteria in cheese manufacture
   A.G. Karahan and M.L. Çakmakçi

25. Surface microbiota analysis of Italian cheeses
   P.S. Cocconcelli, C. Fontana, D. Bassi, S. Gazzola and E. Salvatore

26. Staphylococcal enterotoxin production and detection in cheese
   J.-A. Hennekinne, Y. Le Loir and A. Delacroix-Buchet

Cheese components

27. Foreign milk in sheep’s, goat’s and water buffalo milk cheeses
   F. Fuselli and F. Tidona

28. Biogenic amines in cheese
   H.K. Mayer and G. Fiechter

29. Preservatives in cheeses
   F. Fuselli and C. Guarino

30. Total trans fatty acid in spreadable cheese
   P.M.C. Barra, M.M. Barra and M.A.L. De Oliveira

31. The aromatic profile of cheese during ripening: a focus on goats cheese
   F.J. Delgado, J. González-Crespo, R. Ramírez and R. Cava

32. Metabolic profiling of cheeses by nuclear magnetic resonance spectroscopy
   T.A.P. Rocha-Santos, D. Rodrigues, A.M. Gomes, A.C. Duarte and A.C. Freitas

33. Lactose and galactose content of cheese
   P. Portnoi and A. MacDonald

Characterising and changing the composition of cheese for health benefits

34. Microbial community composition in cheese using molecular techniques
   M. Marino, F. Frigo, I. Bartolomeoli and M. Maifreni

35. Quality and sensory attributes of cheese: a focus on methodology, milk composition and ripening time
Table of contents

36. Sodium chloride substitution of cheese
   M. Ayyash, F. Sherkat and N. Shah
   545

37. Healthy fatty acid profiles of cheese
   P. Gómez-Cortés, M. Juárez and M.A. de la Fuente
   567

38. Milk pre-treatment and free fatty acids in cheeses
   M.C. Perotti, M.A. Vélez and I.V. Wolf
   585

39. Spice and herb extracts as natural preservatives in cheese
   B. Shan, Y.-Z. Cai, J.D. Brooks and H. Corke
   601

40. Fortification of cheese with vitamin D
   B. Ganesan, C. Brothersen and D.J. McMahon
   617

41. Reduced-fat cheeses: composition and health potential
   T. Ritvanen
   637

42. Ovine cheese: production, consumption and strategies to improve biofunctional properties
   M. Albenzio and A. Santillo
   651

Metabolic and nutritional effects of cheese

43. Cheese intake, LDL-cholesterol concentrations and the putative role of calcium, protein and fermentation
   J. Hjerpsted
   665

44. Impact of cheese consumption on cardiovascular risk factors
   F. Sofi
   677

45. Probiotic cultures in the cheese industry
   A. Perez Chaia, G. Vinderola and G. Zárate
   689

46. Ripened cheeses and HL-60 apoptotic DNA damage: a potential role of highly ripened cheeses in the prevention of leukemic cell proliferation
   S. Yasuda and K. Igoshi
   703

47. Health benefits of cheese consumption in osteoporosis
   O. Gursoy, H. Ozbas and Y. Yilmaz
   719
